PROFILE

I'm a dedicated and passionate student with a strong focus on Web Development and UX/UI Design. I enjoy exploring new technologies, researching innovative ideas, and drawing inspiration from creative digital experiences to enhance my own projects. These pursuits have strengthened both my technical and design skills, allowing me to approach problem-solving with creativity and precision. I am eager to continue learning, growing, and contributing to impactful digital products that deliver meaningful user experiences.

PROJECT EXPERIENCES

Apple Website Clone

- Technologies: HTML, CSS, JavaScript,
- Details: Developed a responsive product detail component featuring a scrollable image gallery and carousel counter. Implemented reusable UI modules and optimized layout for both desktop and mobile users to ensure a seamless browsing experience.
- [View here](#)
